MEMORANDUM FOR: CFP

SUBJECT : PSB Staff Meeting, 28 January 1953

25X1A 1. [redacted] announced that Mr. [redacted] would be appointed 25X1A  
Assistant Director for Coordination, relieving [redacted] of these 25X1A  
additional duties.

2. On an up-coming trip to the Far East Mr. Kenneth Young of the  
State Department will explore with Department representatives in Japan  
the advisability of establishing an overseas coordinating committee  
for the implementation of the PSB Japan Plan.

25X1A 3. Mr. Joe Phillips will represent the State Department at the  
NATIS Conference in Paris next week. The PSB staff ([redacted]) 25X1A  
[redacted] recommend to the Director that the PSB staff express itself  
as suggesting they have read the papers but could not consider a 25X9  
formal endorsement for the reason that the U. S. position is prac-  
tically a categorical rejection of the De Gasperi proposal providing

[redacted]  
which, in this case, would permit the formation of an exploratory  
committee to investigate further and report their findings at a future  
date.

25X1A 4. [redacted] reported that State is increasingly worried  
about RFE status in Germany and will discuss this matter more formally  
with CIA in the immediate future.
